About Denise: Denise Bissonnette is an internationally renowned writer, trainer and keynote speaker. For two decades, she has **inspired** people and organizations throughout North America to look beyond traditional concepts of job and career development and to craft livelihoods rooted in the individual **genius** of each person. She has authored several publications on **creative** job development, state of the art job search techniques, the cultivation of the human spirit, and how to "**shine**" on the job. With a style all her own, Denise's work is a rich tapestry of her talents as a poet, writer, storyteller, teacher and career developer. For more information about Denise and her publications, visit her website at www.diversityworld.com!

About *Beyond Traditional Job Development*. Job Developers are entrusted with the **awesome** responsibility of bridging the gap between unemployed job seekers and the work available in their communities - yet they are frequently provided with few tools and little guidance for achieving their goals. Recognizing that effective job development is perhaps more an art than a science, this **dynamic** seminar is a goldmine of proven tips, tools and strategies. *Beyond Traditional Job Development* offers a practical, **innovative** and proactive approach to job development that challenges the job developer to look beyond traditional methods for achieving placement **results**.

About *Rekindle the Flame*. Drawn largely from her book, *The Wholehearted Journey: Bringing Qualities of Soul to Everyday Life and Work*, Denise Bissonnette offers a **dynamic**, inspiring and **life-altering** workshop experience! Designed to re-ignite the power, **passion** and purpose which originally drew people to the helping professions, this one day-intensive seminar intertwines poetry, parables, and practical applications to put **soul** back into the everyday realities of life on the job. *Rekindle the Flame* enjoins each of us to find, in our work, an expression of our own gifts, our own purpose, and our own **joy** – all in the context of our common vocation in the "helping professions".
