

# CLBC ASSESSMENT SUMMARY – ASSESSOR REPORT FORM

This form is to be completed by a qualifying practitioner for individuals applying for adult services through Community Living BC. A qualifying practitioner means either a Psychologist or a Psychological Associate registered with the College of Psychologists of British Columbia or a Certified School Psychologist certified by the British Columbia Association of School Psychologists. CLBC determines eligibility for services based on documents completed by qualifying practitioners. The personal information collected on this form will be treated confidentially in compliance with the Freedom of Information and Protection of Privacy Act.

### SECTION B: Assessment of Adaptive Functioning (Personalized Supports Initiative)

Individuals who do not meet DSM-IV-TR criteria for Mental Retardation may be eligible for the Personalized Supports Initiative (PSI). PSI eligibility is based on significant limitations in adaptive functioning (three or more standard deviations below the mean) and a diagnosis of either Pervasive Developmental Disorder (PDD) or Fetal Alcohol Spectrum Disorder (FASD). Please state adaptive functioning below:

I am a Psychologist or a Psychological Associate registered with the CPBC or a Certified School Psychologist certified by BCASP. This form is intended to summarize findings detailed in my attached or previously forwarded report. I have assessed the above named individual on \_\_\_\_\_ (mm/dd/yyyy) using the current version of: (check one)

- Scales of Independent Behaviour – Revised
- Vineland Adaptive Behaviour Scales
- Adaptive Behaviour Assessment System

I have determined that Global Composite scores on the above measure of adaptive functioning fall at least 3 standard deviations below the mean:

- Yes
- No
