North Okanagan Community Council Meeting

Lunch 12:00-12:30 pm

13. QSO Issues:

a) Current Family Issues:

- Manager is still unsure of final budget targets. The area is operating under extreme health and safety criteria, individual family situations are being reviewed to see how we can give funding, no definite answers, only partial funding is a common result that families are experiencing.
- Hoping to have everything defined by end of June

b) Current Service Provider Issues:

- Continuing to work with service providers, looking at savings
- Revising contracts with Homeshare providers continues to be a challenge, people were paid based on an individual's presenting complexities. Over a number of years their support needs have been reduced but the rates have not reflected the changes in support requirements.
- Some service providers feel penalized by unfair budget rate allocations

c) Current Budget Situation:

- We are running- efficiently as possible . We are hopeful that the Interior will be recognized with a unique set of targets. CLBC has a savings target, The budget allocation tells us what we can spend and what we will need for savings. The discrepancy of funding for the Interior has historical roots.
- If HST vote is lost, the expectation is that result will be a significant budget limitation
