5D	GSA score of 5 with five ongoing flags	5,015.00	841.13	5,856.13	4,850.33	1,005.80	5,856.13

NOTE 1: The CLBC portion of the Home Sharing rate for each level includes 2 days of monthly respite. Home Sharing providers are not required to regularly report on this funding, but should retain documentation on how often it has been utilized. If additional respite is provided through Supports to Shared Living, this should be captured seperately on home sharing provider contracts, as Service Providers and Agencies coordinating Home Sharing are accountable for this funding.

NOTE 2: Starting April 1, 2024, CLBC increased funding to all Home Sharing rates, in recognition of costs associated with Worksafe BC POP coverage.

NOTE 3: In situations where the individual is receiving less than the standard PWD or OAS/GIS rate, such as when an individual and their spouse are sharing a room in a home share and both are in receipt of the GIS benefit at the married rate, please consult with CLBC as to the Individual Contribution rate.

NOTE 4: The format of this table was refeshed in February 2025 to include the Individual Contribution columns.
