Community Asset Mapping is an online resource to discover the inclusive and welcoming places in your community and around BC. This is a tool that connect people to one another and to their community to strengthen inclusion.

It is part of the welcome workshop and will be shared by our service providers. Council members are encouraged to share this in social media as well to get the word out.

How to use it?

1. Go to the link

Link: www.findsupportbc.com/map/

2. Fill the Suggest a place portion. All places are reviewed by headoffice for approval prior to posting.

- **BC Non-Profit Housing Association survey** – online survey to ask CLBC eligible individuals about their current housing situations. Results gathered from this survey will be critical to engage stakeholders as they plan for housing along with the needed supports.

Please click this link for the survey: <https://bcnpha.ca/research/inclusive-housing-survey/>

- **Include ME survey** – Jack Styan, from Strategic Initiatives, presented at the PAC meeting the data gathered from the Include Me Survey. This survey invites individuals to participate so we can measure quality of life from their own perspective. Information gathered from this survey will help provide data on how the support and service that we offer help make things even better.

Emotional well-being, material well-being, and physical well-being continue to be the highest scoring domains for Include Me Survey while interpersonal relations and social inclusion continue to score lower than all other domains.

- **CLBC Monitoring Framework** - Jennifer Love, from Quality Assurance, gave a presentation on CLBC's monitoring framework. CLBC uses this monitoring framework with service providers and agencies to make sure the services people get increase their quality of life and continue to get better all the time.

- **Guide for Acknowledging Indigenous Territory** – also presented at the PAC meeting is the Guide for Acknowledging Indigenous Territory. This guide provides guidance to staff on acknowledging the Traditional Territories of Indigenous Peoples and build relationships with them.

For questions and assistance on this matter, please contact Norah Drake, CLBC Indigenous Practice Advisor, at norah.drake@gov.bc.ca.

- PAC next meeting is on January 31.

TOPIC	DISCUSSION		
Recruitment Discussion by Jessica Humphrey	<p>Jessica suggested that council members revisit the work plan 2019-2021.</p> <p>Main goal is to recruit and appoint a chair. If recruitment in each location is posing a challenge, Jessica suggested to focus on those areas where we are at like North Vancouver, Powell River and Sunshine Coast, build and strengthen it.</p> <p>She also suggested on having a rotating chair and conducting a trial run.</p> <p>Welcome Workshop is also another area where Community Council members can pitch in. For example, Jordyn as a presenter at the Welcome Workshop can try this. James suggested to play an old Community Council video at the Welcome Workshop to better create awareness on what Community Council is and the work that they do to the community and individuals that we serve.</p> <p>Another suggestion is to use the work plan as part of the agenda to provide guidance to the council and motivation as well.</p> <p>Abbotsford recently conducted an info event on Community Council as a means of recruiting members. Each council member was tasked to invite a friend to the info event.</p> <p>James asked Randy if we have or we can have a cheat sheet instead of the 85-page Community Council Member’s hand book.</p> <p>Randy will try to create one.</p> <p>Jessica left the meeting room at 5:40 pm Randy left the meeting room at 6:05 pm Jen Davey left the meeting room at 6:15 pm</p>		
BC’s Affordable Housing Conference 2019	James will be attending this conference on Nov 17, 18 and 19 and will provide an update at the next Community Council meeting.		
Other Updates	<p>James suggested that agenda for the following month’s meeting be drafted in each meeting.</p> <p>Next meeting agenda:</p> <ol style="list-style-type: none"> 1. Chair person, trial run and schedule 2. How to reach out to our First Nations communities? 3. Northshore Community Mapping 		

	Sayo suggested that Northshore Community Mapping be conducted at the North Vancouver Public Library. This is one way of capacity building and create Community Council awareness.
